What is Recycle Boulder Valley?

Recycle Boulder Valley is an internet message board hosted on Yahoo! It is a place where people from the Boulder Valley region can post notices for used items that need new homes. As a member, you can give household items away to fellow board members and you can periodically ask for items you need.

Together, we create a healthier, sustainable community, lessening our impact on the earth.

You've been cleaning out your closets, getting ready for the holidays, or getting ready to move. You find an old birdhouse your wife detests that your Great-Uncle Fred made forty years ago. It isn't trash, but it IS time to get it out of the house. What can you do?

You can...

- Have a garage sale (if you have enough things to set out on your lawn).
- Take it to a local thrift shop

OR...

- Give your items away to people on Recycle Boulder Valley, one item at a time!
